

Message from PSI:

We have made a difficult decision to close our PSI owned and operated sites in the United States, until 13 April, out of duty of care to our employees and in compliance with the variety of local/state regulations popping up. We are working to contact candidates to reschedule.

Candidates can reschedule up to and include the day of testing at no penalty, of course. In most cases, this can be done online, without needing to call our call center.

Do note that this does not impact third party sites; they are making their own opening and closure decisions. We will continue to update the list of closed third party sites on our COVID-19 site at <https://www.psionline.com/important-notice-update-concerning-covid-19-coronavirus/>.
